

Bristol Rural Branch
March 14th '08

To all tower captains:-

We are arranging a training day for young people (under 20s), in the branch that could be combined with a social activity.

The purpose would be to introduce them to other young ringers in the area as well as to help them progress with their ringing at whatever stage they have reached. The more experienced would be encouraged to help those with less experience as well as improve their own skills, (helping others is a great way of improving ones own skills in itself). Obviously the success of the day would be dependent on some adult help as well.

Please could you let me know of any young people that come to your tower who may be interested in attending on this day and let me know what level of ringing they have reached to date.

Rosemary Morgan
Deputy Ringing Master
